

Lam Lighting's new catalog sets the standard in Performance Indirect Lighting.

Redesigned from the ground up by a group of award winning designers, the new Lam Lighting catalog gives specifiers the visual and technical data to make product specification easy. Our broad product line has been designed with equal focus on aesthetics and performance. Visually, the catalog has hundreds of product and application photos. Technical data shows how to use our product to meet stringent energy codes. Our product selection guide allows quick access to the product you need.

Request the new binder at **800-732-5213** or visit us at www.LamLighting.com and see for yourself.
